

When you or your family need help...
When things get out of control...

Do Not Face the Problem Alone

Call

Trinitas Regional Medical Center Today

At Trinitas Regional Medical Center, we believe that early intervention is key to mental health and well-being. As a result, we have redesigned our services to meet the needs of individuals in the community to reduce unnecessary emergency room visits and hospitalization. Services are available county- wide for those needing mental health assistance. All services can be accessed 24 hours a day, 7 days a week.

Call us if:

- You are overwhelmed and feel you need immediate assistance.
- You experience sudden and dramatic mood swings.
- A family member stops taking medication or appears to be isolating.
- A friend or loved one appears hopeless and will not seek help on his or her own.
- You suspect someone is a possible danger to themselves or others.

When you call we will:

- Assess the situation to see what help is needed.
- Offer assistance with getting services such as counseling.
- Come out to the home or community location as needed.
- Assist with transfer to a hospital if safety is a concern.

Our Trained Staff are here to help
